Our PROCESS

1

Meeting our clients

After making the decision to build a new home, you will speak to one of our representatives who will help you decide what your budget is and where exactly you want to build. We have 5 realtors who can help make this process easy and can answer any questions and concerns you have about building your new home.

2

Selecting a Lot and Creating Your Dream Home

After deciding where you'd like to build, you will be able to select the floor plan and lot that you want and work with our designers about everything you want in a home. From exterior to interior, you make every decision on what you want for your dream home. After you've made your selections, you sit back while we build your home. Your realtor will be able to keep you updated on the progress and any questions you have.

3

Closing on Your New Home

Your house is built and it's time to get your keys and close. You will be provided with a closing folder filled with info about your home, keep this folder to refer back to as you may need to know the color of your walls in a few years. All contact information will be provided in the folder for any future need.

Your home is finished and now you can relax... after you move in and unpack everything, of course.
